Introduction to Hapkido Modern Rules:

As we strive to elevate Hapkido to an international level and ensure its continued growth and relevance in the global martial arts community, it is imperative to introduce modern rules that align with international standards while preserving the essence and integrity of our beloved art. The following is an overview of the Hapkido Modern Rules:

1. **Scoring Criteria**: Clear and consistent scoring criteria are established for various techniques.
2. **Weight Classes and Age Divisions**: To ensure fair competition, participants will compete in defined weight classes and age divisions.
3. **Safety Protocols and Protective Gear**: Safety is paramount. Therefore, stringent safety protocols are in place, and participants are required to wear appropriate protective gear during matches.
4. **Time Limits for Matches**: Matches will have predefined time limits to maintain excitement and efficiency. This ensures that matches progress smoothly and allows for the scheduling of multiple bouts within the competition timeframe.
5. **Referee Signals and Gestures**: Standardized referee signals and gestures are implemented to facilitate clear communication and maintain consistency throughout the competition. This enhances transparency and ensures that all participants understand the decisions made by officials.

These modern rules represent a significant advancement for Hapkido, paving the way for broader participation, increased safety, and enhanced spectator experience. By embracing these rules, we can propel Hapkido onto the international stage while preserving its rich heritage and traditions.

As we embark on this journey together, let us continue to honor the spirit of Hapkido while embracing the evolution necessary to ensure its continued success and prosperity in the modern Hapkido Sport era.

Rules Book will be published on IHF website (hapkido.or.kr) and THA website (hkd.or.th)
